

## PURPOSE

---

Define responsible use of ACME systems and the ACME Horizon platform.

## ALLOWED

---

- Business activities within assigned roles
- Testing in approved environments with synthetic data only

## PROHIBITED

---

- Attempting to bypass security controls
- Automated scraping that violates published rate limits
- Hosting unlawful content
- Storing regulated data types without a written agreement

## ACCOUNT SECURITY

---

- Use strong, unique passwords and MFA where supported
- Do not share credentials or tokens

## REPORTING ISSUES

---

Report suspected misuse or security concerns via the Trust Center portal. ACME will triage and respond according to severity.
